Projects completed:

- Diceware Passphrase Generator: An app that uses Diceware Word List to randomly generate passphrases of different lengths using words from that list.

- NASA APOD: An app that shows the Astronomy Picture of the Day, and can show pictures from previous dates.

- Craps Simulator: A game on android that's programmed to play 1 full game of craps at a time. Also implemented a play quick option that runs through 1000s of games a second to help determine your winning percentage.

- Mega Millions: (Inspired by the Mega Millions Lottery) an app that generates 6 random numbers that are stored in a database for later use and can be cleared.
