has successfully completed the online, non-credit Specialization

UI Design for Web Developers

This specialization takes you through the journey of mastering User Interface (UI) design, beginning with the fundamentals of visual design principles and progressing to practical skills in UI creation. You'll gain proficiency in design tools and best practices, and learn how to transform your designs from concepts in Figma to fully functional code. By the end of the course, you'll be equipped to craft intuitive and aesthetically pleasing interfaces with a seamless user experience.
